*Use-Case Name*:   5.0 Drop Event Submission

Description: Drop Event Submission is a counter-part use-case for creating an event that is under the event owner. The event owner cancels an event with pending approval from the administrator.

Preconditions: The user must be logged in.

Flow of Events:

Scenario Name	*Description*
Scenario 1 (Basic Flow) Confirm action	1. When the event owner wants to cancel pending event due to changes or incorrect informations, he clicks the cancel button. 2. The event owner chose to cancel the pending event, he confirms the action and successfully deletes it.
Scenario 2 Cancel action	1. When the event owner wants to cancel pending event due to changes or incorrect informations, he clicks the cancel button. 2. If ever the event owner just accidentally clicked the Cancel Event button, or clicked the cancel button but chose not to pursue it, the event owner has a chance not continue the action.
