Sprint Review Checklist

Reviewer's Name:	Mika Lenon, Camille Bacister	Peer Review Date:	
Project Name	**Watudu: Event Sharing App (Android)**	**Project ID:** (if applicable)	
Developer's Name:	Camille Bacister, Mika Lenon	**Sprint Number**	5
Sprint Release Approved			

This checklist is to be used to assess if sprint goals have been achieved during the sprint. Particularly, if the target features of the software have been built based on user acceptance criteria.

User Acceptance Criteria	Comply	Remarks
UI should be better and polished	/	
User should be able to switch from one tab to another	/	
Add values to the attributes for the events		Done on the temporary new app we made but when merging, some error happened. Still debugging the app.
Get json file from a server and parse it	/	We've managed to do ths on a separate file before, but when we merge it the app went down. And now, even the separate tempporary file where it worked before is not working as well. We are still updating android studio in our laptop to see if theres just few missing packages.
